
ARGENTA LAUNCHES 500 MILLION EURO BELGIAN COVERED BONDS FOR PROFESSIONAL INVESTORS

Antwerp, 12 October 2022

Argenta today successfully launched its fourth issue of EUR 500 million Belgian covered bonds under its covered bond issuance program.

Due to rising market interest rates, the 4-year term is significantly shorter than earlier transactions. The bonds are rated AAA by Standard & Poor's.

The issue price is 99.874 % and the annual coupon is 3.25 %. This gives an annualized yield of 3.284 %.

This benchmark issue will further strengthen Argenta's name and credit story as an issuer in the fixed income market. Moreover, this is an additional source of financing for Argenta at interesting conditions.

Distribution

On October 11, Argenta announced its intention to institutional investors to launch a fourth issue of Belgian covered bonds. The joint lead managers were Belfius, LBBW (Landesbank Baden-Württemberg), Barclays and Natixis.

The issue was well received despite difficult market conditions due to geopolitical tensions.

At announcement, the pricing guidance was Mid Swap + 16bp.

The order book stood at over 500 million euros 60 min after the opening. It then built further to above 730 million euros for 35 different investors. The book was finally closed at 11:30 am at a spread of 14bp.
